

# Cover Valet

## Cover Lifter Comparison: Specs at a Glance

All specs verified against [covervalet.com](http://covervalet.com) product pages. Dimensions shown in inches (metric in parentheses where applicable).

Model		Best For	Mount Style	Gas Shocks	Cover Shape	Fits Covers Up To	Rear Clearance	Side Clearance	Spa Height	Swim Spa Compatible	Inground Compatible	Best Sales Angle	Packaging / Pallet Qty	Installer Notes
<b>Cover Valet PRO™</b>		Premium installs; swim-spa compatible	Cabinet or Deck Mount	Yes (dual gas shocks; locking shock for safety)	Square / Rectangle	104" (264 cm)	6–8" (15–20 cm)	2.5" (6 cm)	All heights	Yes	Yes	Premium feel, full-span center bar, reinforced support, all-aluminum construction - no plastic	60 per pallet	For radius corners >12", the XL Side Mount Bracket (48") is required. Confirm bracket supports the cover seam properly.
<b>Cover EX™</b>		Mounted installs, non-assisted; swim-spa compatible standard	Cabinet Mount	No	Square / Rectangle	104" (264 cm)	12–15" (30–38 cm)	4" (10 cm)	All heights	Yes	No	Reinforced aluminum construction; two mounting positions; no plastic brackets	96 per pallet (triangle box)	Two mounting positions allow install flexibility. Cabinet mount only. Confirm side mounting area is structurally sound.
<b>Cover Valet™</b>		The classic, trusted dealer workhorse	Cabinet or Deck Mount	Yes (dual gas shocks; locking shock for safety)	Square / Rectangle	CV250: 91" (231 cm) / CV400: 104" (264 cm)	6–8" (15–20 cm)	2.5" (6 cm)	All heights	Yes	Yes	Proven, widely used; open cover doubles as a privacy wall; all-aluminum construction - no plastic	100 per pallet	For radius corners >12", the XL Side Mount Bracket (40") is required. Works in most gazebos and partial enclosures.
<b>Cover Rock-It™</b>		No-drill undermount installs	Undermount	No	Square / Rectangle	100" (254 cm)	18" (46 cm)	3.5" (9 cm)	30–44" (76–112 cm)	No	No	No screws into the cabinet; easy install; cover stows low for an open view around the spa; all-aluminum construction - no plastic	96 per pallet (triangle box)	Under-spa plates are held by the weight of the spa. Best installed when spa is already positioned on a stable, finished surface. Not compatible with inground spas.
<b>Cover RX™</b>		Rotomolded spas, smaller spas, and cold plunge tubs	Undermount	Yes <sup>[1]</sup>	All cover shapes	96" (244 cm)	18" (46 cm)	None	24–38" (61–96 cm)	No	No	Universal fit - works on round, octagonal, and rotomolded spas. Also excellent for cold plunge tubs. All-aluminum construction - no plastic.	80 per pallet	Requires hardscape support (concrete, asphalt, or decking). Not ideal for dirt or gravel installs. Spa should be drained for proper installation.
<b>Cover Caddy™</b>		Low-profile undermount with cleanest sightlines	Undermount	Yes (gas spring assisted)	All cover shapes	120" (305 cm)	36" (91 cm)	None	30–41" (76–104 cm). Optional swim spa conversion kit available for spas up to 55" tall (requires ≥40" rear clearance).	Yes (with optional swim spa conversion kit)	No	Cleanest low-profile look; stores cover out of sight; works with round, octagonal, cut-corner, and large-radius-corner spas; all-aluminum construction - no plastic	50 per pallet	Base plate must sit flat and fully supported. Do not allow the base plate to overhang the slab or deck. Spa may need to be drained for easier install.

Specifications, clearance requirements, and compatibility should always be confirmed against the official product page at [covervalet.com](http://covervalet.com) and the installation instructions for each model prior to installation.

1. The Cover Rx shock keeps the U-Arms in the "ready" position to accept the cover and allows a single user to operate the lift, but does not provide and lifting or stowage assistance.

\*\* WARRANTY ON ALL LIFTERS: 5-year limited warranty on lifter; 1-year on shocks
